

# Telligen QI Connect™

Partnering to improve health outcomes through relationships and data

**Telligen QI Connect™** is a comprehensive quality improvement program that **places healthcare providers and consumers at its center**. Its **Affinity Groups** set common goals to **make an impact** on the most challenging healthcare issues facing our communities today. Because whether you're providing healthcare or receiving it, in today's environment it takes **collective action** to make healthcare safer, more accessible and more cost-effective.

## Telligen QI Connect™ was created for your community.

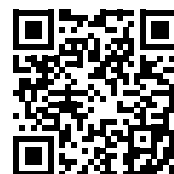

-  For healthcare professionals squeezed by **ever-greater administrative requirements**.
-  For your local nursing homes and post-acute care providers, caring for their residents while **deciphering new regulations**.
-  For community members eager to **prevent opioid harm and expand access to behavioral health services**.
-  For clinicians committed to using evidence-based best practices to improve **chronic disease prevention and self-care**.
-  For colleagues struggling to implement **value-based purchasing mandates that impact the livelihood of their organization**.
-  For families urgently seeking **community resources to help them care for aging and ailing loved ones**.

As a **Quality Innovation Network-Quality Improvement Organization (QIN-QIO)** for the Centers for Medicare & Medicaid Services (CMS), Telligen has provided **no-cost healthcare quality consulting** for more than 45 years.

## Affinity groups will

-  **Test and evaluate** proven quality improvement strategies 
- Implement strategies** that complement the goals of your organization and community  **Exchange ideas and solutions** with peers with similar goals and challenges 
- Apply evidence-based tools** to **create powerful changes** in your patient outcomes 
- Celebrate and recognize success!**
