

# SUPPORT FOR CANCER PATIENTS

## Telligen Oncology Program

A cancer diagnosis can affect the emotional health of patients, families, friends, and caregivers. This life-changing experience can lead to anxiety, distress, and depression, making it hard to cope with the effects of having cancer. It is important to recognize these changes and get help when needed.

**Nearly 40% of Americans will be Diagnosed with Cancer in Their Lifetimes**

- National Cancer Institute

Telligen's certified oncology case managers provide support for members and their families. Telligen works with the provider and patient to perform a holistic review of the entire treatment plan to ensure that it is the best option for the patient and adheres to the National Comprehensive Cancer Network recommendations.

### Program Benefits

Assistance in navigating through complex healthcare systems

Assistance to keep the member at home vs. the hospital, or receiving outpatient services

One dedicated case manager throughout the process

Assistance locating financial resources

PPO redirection to maximize benefits

Proven treatment plan
